And What Have You

By BOB CRAIG

Because this is Thanksgiving week I am borrowing Cong. Omar Burleson's newsletter for this space this week. Doing so serves two purposes, first it has some good thoughts for this Thanksgiving season and second fills up this space. With the paper coming out a day early I seem to have lost the day that I normally write this column.

The following is a "rerun" from November 23, 1967. The thoughts then are no different now.

In spite of our individual concerns, disappointments and frustrations, as a people we have more reason to be thankful than any Nation in existence now or in the past. We can be thankful that we have lessons of the past to guide us in the future, if we will but heed them. It says in the 14th verse of the 7th Chapter of II Chronicles, "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

We are the greatest nation the world has ever known but there are troubled clouds hanging over the horizon.

We do not know what the future holds but we know who holds the future.

The coming of the Pilgrims to the New England coast in 1620 forms a glamorous chapter in American history, although it marked the first socialist settlement in America.

Little noticed, and more often ignored, is that this experiment in socialism failed within three years, and for their very survival, the Pilgrims had to turn to what we know as the free enterprise system. This valuable lesson should be more emphasized in all places when we pay tribute to these sturdy people who were seeking new freedoms.

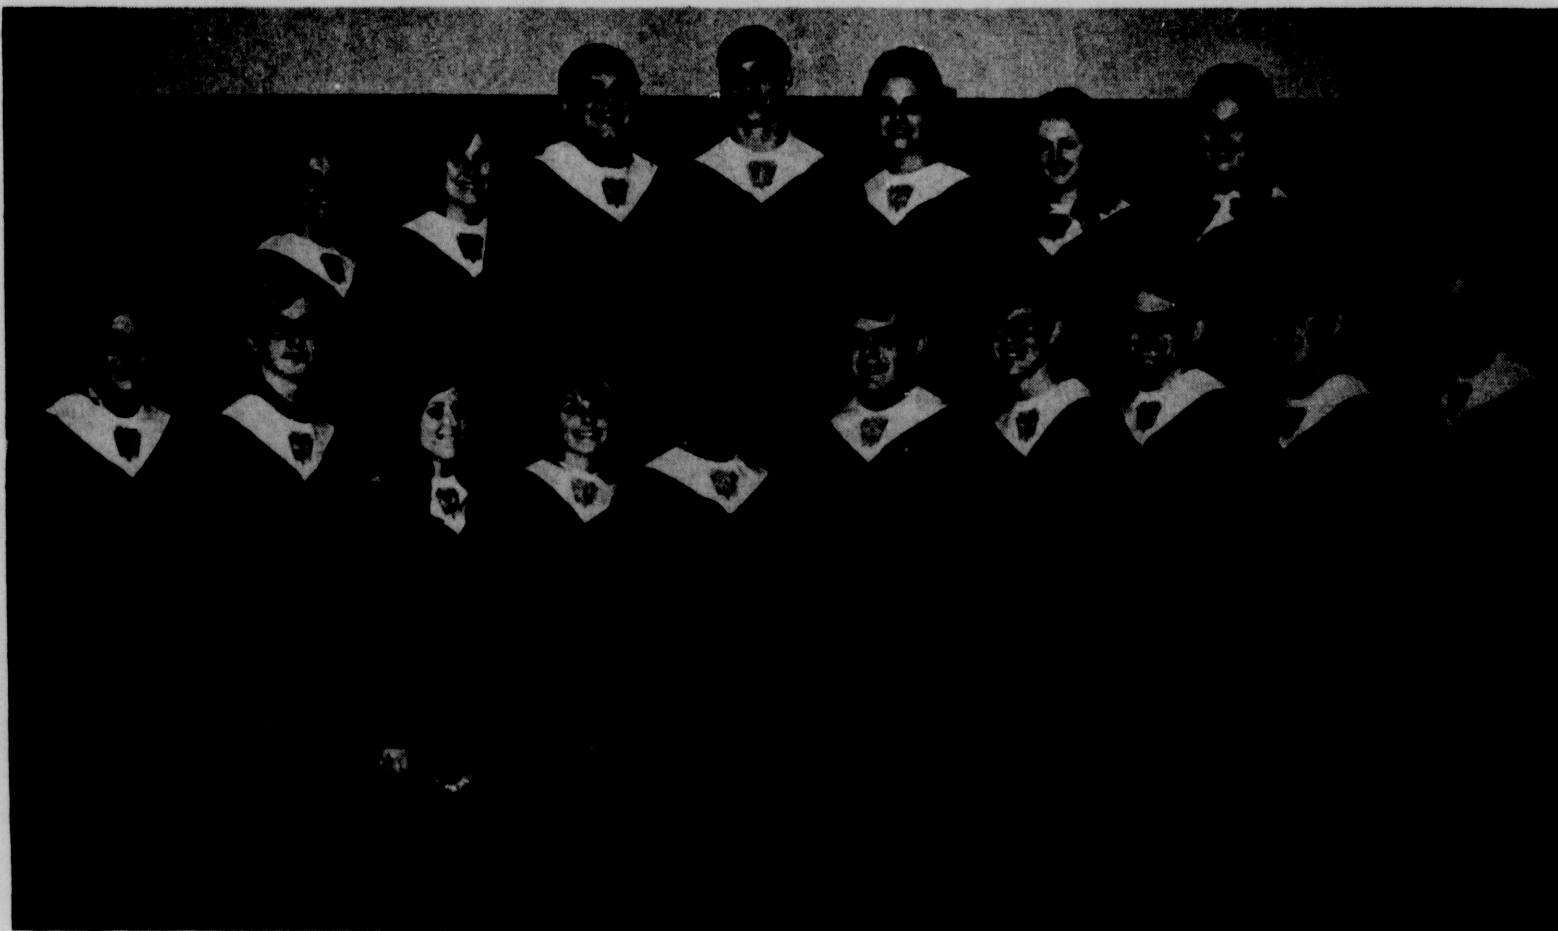

Before landing, the Pilgrims entered into what we know as the Mayflower Compact. Under this agreement, Plymouth was set up as a share-the-wealth community. Nobody owned anything. Whatever was produced belonged to the community as a whole. They called this system "the common course and condition." They lived under this system from the desperate, disease-ridden first winter of 1620-21 until the hungry spring of 1623. Then they changed to private enterprise. Why? The answer is written by William Bradford, one of the leading original Pilgrims and second Governor of Plymouth Colony, entitled, "Of Plimoth Plantation."

The Pilgrims were not long under this "common course and condition," writes Bradford, until it "was found to breed much confusion & discontent, & retard employment that would have been to their benefite and comforte. For the young men that were most able and fitte for labor and service did repine that they should spend their time & strength to worke for other mens wives and children, without any recompense. The strong...had no more in devotion of victails & cloaths than he that was weake...."

"Upon the poynte all being to have alike, and all to doe alike, they thought themselves in the like condition, and one as good as another. And so, if it did not cut off these relations that God hath set amongst men, yet it did at least much diminish and take of the mutuall respects that should be preserved amongst them."

Instead of a Thanksgiving Feast in the fall of 1622, there was literal starvation and hopelessly low morale. "So they begane to thinke how they might raise as much corne as they could...that they might not still thus languish in misere. At last, after much debate of things, the governor gave way that they should set corne every man for his own per-

In the Spirit of Thankfulness . . .

let us pause, this Thanksgiving Day, to reflect on the many blessings that the Almighty has showered upon this country. Let us consider how we have used these gifts, and endeavor to utilize them for the good of all of His creatures. We have much to be grateful for in 1971 . . . we have much to achieve in years to come. Kilpatrick, pastor of the South Side Baptist Church of Stamford was elected president and the remaining officers in line with such an prganization were elected.

The first meeting of the association will be held at the First Baptist Church of Hamlin at 3:00 o'clock November 25th. A well of water...

Many important events have taken place at the well. In days long ago it was a meeting place, where all came because of the necessity to obtain life-sustaining water.

Jacob met his beloved Rachel at the well. Moses met the daughters of his future father-in-law at the well in Midian. Much later Jesus Christ met a woman of Samaria at the well and said, "Whosoever drinketh of the water that I shall give him shall never thirst: but the water that I shall give him shall be in him a well of water springing up into everlasting life."

The church of God today is a meeting place where many come to obtain this life-giving and life-sustaining water of which Jesus spoke.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coffee Honors OES Worthy Matron Recently

Mrs. Kelly Scott, worthy matron of the Order of Eastern Star Chapter No. 460, was honored last Wednesday morning with a coffee in the home of Mrs. Paul Goodgame. The occasion was in honor of her trip to Grand Chapter in Austin recently.

Mrs. Goodgame greeted guests and presented them to Mrs. Scott and past matrons of the local chapter, Mmes. R. H. McCurdy, W. B. Cotton, A. A. Hackley, Dick Maberry, Clarence Hyer, O. G. Harvey

and A. Hudson.

Mrs. Hackley, a charter member of the Hamlin Chapter and longtime member of the O. E. S., gave some highlights of her year as worthy matron in 1929.

Coffee, nut bread and cheese rolls were served from a table decorated in fall colors.

Co-hostesses were Mmes. Thomas Welch, Don Bailey, Harold Nelson, Charles Brumley, Cotton and Harvey.

Mrs. L. M. Braley registered guests.

Mrs. Cal Sewell will discuss goals for the chapter at the Christmas party to be held at the regular meeting Dec. 7.

Wedding Hints

Planning a wedding ? These tips on getting information to the Hamlin Herald office should be followed.

- Two pictures of the bride will be used only if the engagement is announced six weeks prior to the wedding. A one column picture will be used with the engagement announcement and a two column picture will be used with the wedding.
- Only black and white prints will be used. A billfold size for the engagement picture is adequate. A 5 x 7 or 8 x 10 is suitable for the wedding picture. Glossy prints are preferred.
- Wedding information and picture should be turned in before the wedding or on Monday immediately following a wedding that occurs Wed-

nesday through Sunday. Monday and Tuesday evening weddings should be reported no later than Monday. Information that is to be sent to a daily publication should be in the Herald office one week prior to the wedding date.

4. Information and picture received three weeks after the event will not be published. A brief announcement of the wedding will be used after three weeks.

5. Wedding stories and pictures are used when either the bride or groom is a resident or former resident of Hamlin. Grandchildren of residents may choose either to have a picture with cutlines or a wedding story.

6. Information blanks for engagements, weddings and anniversaries are available at the Herald office.

Every generation has a responsibility to look out for the needs of the next generation.

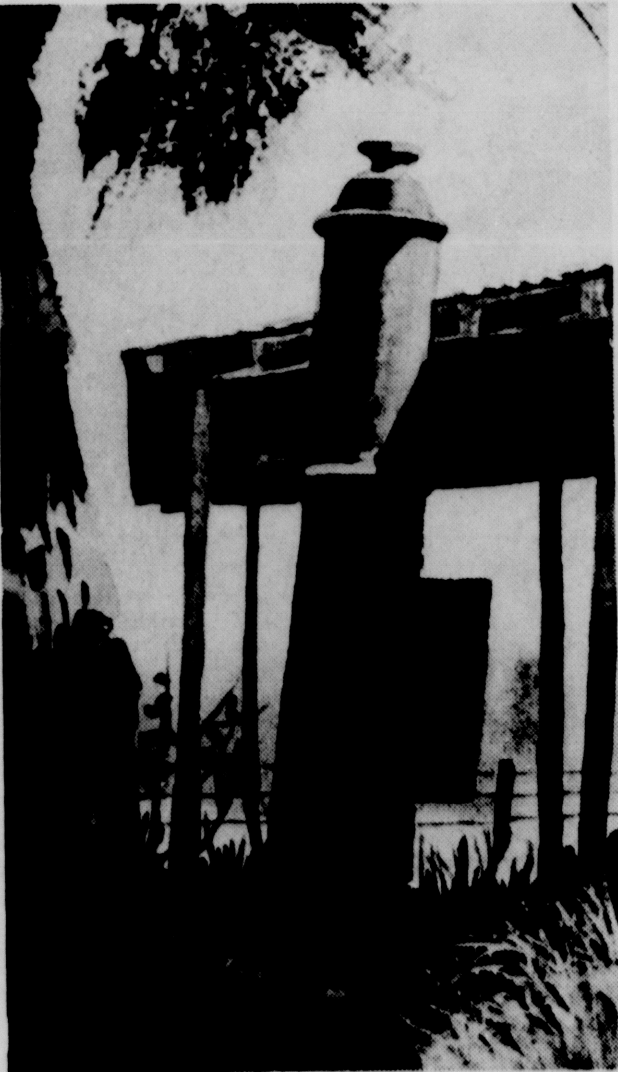

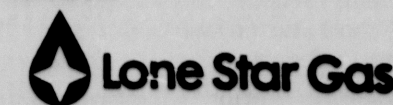

Let's hope we can pass on the earth to the next generation in about the same shape we found it. With rich, fertile soil. Clean water. Clean air. And abundant natural resources.

At Lone Star, we know the

earth's resources are there for us to use. But not to use up. That's why we're continuing our search for natural gas even though we already have a good supply for this generation's needs. We want to make absolutely sure the next generation has the energy they'll need.

We're drilling the world's deepest well at the Anadarko Basin in Oklahoma, 28,000 feet beneath the surface of the earth. If this well is successful, we think we

may have one of the richest gas reserves in the nation. This land has been good to us. Let's make sure it's good to our children.

The sign on the pump said "Regular Only" and after each fillup the gasoline had to be hand pumped back into the top.

But the Midwest Electric Cooperative sent it to join the windmill, the wood stove and carbide lights.

Sports Afield

A few native tricks by which carp can be enticed into an area include "seeding" the spot with grains of dried corn. Leave the corn overnight, then fish over it the next morning. You can also use kernels of corn, drilled and threaded on a hook.—SPORTS AFIELD.

The father of modern canoeing was a Scot named John MacGregor. Swimmer, crack rifle shot, boxer, world traveler, wealthy, super-religious he became interested in canoes from viewing Indian and Eskimo boats on a Canadian and Arctic trip. He returned to England and had a boat built to his own specs.—SPORTS AFIELD.

Considered by many to be the best of Minnesota's limited number of canoeing streams, the Kettle River is a 53-mile long scenic river emptying into the St. Croix, at St. Croix State Park about halfway between St. Paul and Duluth. The most practical boat for the Kettle is the canoe, but large parts of it are suited to travel by a fishing boat of at least 14 feet.—SPORTS AFIELD.

News deadline is noon Tuesday. Tuesday evening events by 10 p.m. Tuesday or 8:30 a.m. Wednesday.

AUSTIN — Almost 100,000 state employees and 140,000 school teachers will get the pay raises the Legislature voted for them — effective November 14.

President Nixon's Pay Board and the Cost of Living Council notified state officials all wage, salary and other benefit increases provided in the 1971-72 state appropriations act will be permitted on end of Phase 1 of the president's wage-price freeze.

For most state employees, the 6.8 percent increase they expected to get September 1 will reach them on a supplemental payroll for the November 14-November 30 period.

Teachers will receive a five percent per year boost in line with a 1969 long-term compensation plan approved by the Legislature.

State employees and teachers lost about \$19 million of their scheduled raises between September 1 (start of the state's fiscal year) and November 14, date of the un-thawing.

They continued to sweat out federal agency rulings as to whether their benefits could be made retroactive because they actually were ordered by state lawmakers before the August freeze order.

State Commissioner of Education J. W. Edgar notified local school districts that compensation benefits such as travel expenses and supplements for insurance premiums may also be put into effect. State funds will be disbursed to school districts in line with the programmed increases beginning with the December foundation fund payments.

School districts with 1,000 or more employees will have to report raises to the Pay Board. Districts with fewer than 1,000 employees are not required to make the reports, although they must operate within board rules.

AG OPINIONS — A local police and fire civil service commissioner may serve as an assistant postmaster or a city tax board of equalization member at the same time, Atty. Gen. Crawford C. Martin held. In other recent opinions Martin concluded:

Taxable property valuation as used in the education code is synonymous with "assessed valuation", and only the last assessed valuation as determined by county government in "the next preceding year" may be used as one of the criteria for establishment of a county junior college district.

Taxes and fees paid the state comptroller under protest may be refunded on his determination within the period in which he may assess a deficiency for the tax without necessity of a law suit.

Secretary of State Bob Bullock, as chief state election officer, ruled senatorial district political party conventions next May must be held in Senate districts created by the Legislative Redistricting Board.

COURTS SPEAK — A district court retrial was ordered by the Texas Supreme Court of a \$470,000 judgment against Sharpstown State Bank of Houston in litigation concerning two surety bonds.

Third Court of Civil Appeals approved shutting St. Louis Southwestern Railway Company stations in Addison and Grapevine — and a business shift to Carrollton.

Supreme Court judges heard oral arguments from the Alcoholic Beverage Commission in a case in which the agency attacks a district court ruling that its suspensions of offending taverns' licenses are appealable.

SHORT SNORTS
State Sen. Wayne Connally of Floresville announced his candidacy for lieutenant governor.

The State Highway Department received permission to excavate the site of its proposed new \$20 million headquarters building here.

State Securities Commissioner Truman Holladay stopped stock trading by three Sherman firms promoting a kind of "electronic checkbook."

Former U. S. Sen. Ralph Yarborough says its 10-to-one he will run for governor or U. S. Senator next year.

Bids on more than 600 tracts of oil and gas leases will be opened December 7 by the School Land Board.

Undercover Alcoholic Beverage Commission agents will check private clubs for violations of a new law allowing issue of temporary membership permits for \$2.

Hunting license sales are near a record — at more than 290,000

for September and October alone — reports Parks and Wildlife Department.

December 1 is the deadline for new car dealers, distributors, manufacturers and factory representatives to get licenses under the Texas Motor Vehicle Commission act.

The State Bar of Texas has approved a new code of professional responsibility for lawyers.

Reps. Tom Moore Jr. of Waco and Grant Jones of Abilene are candidates for the state senate in the new 24th district.

A major Democratic fund-raising dinner is scheduled here December 6, with Sen. Hubert Humphrey and Congressman Wilbur Mills as drawing cards.

IN BALANCE WITH NATURE

Dr. John Carew, head of horticulture at Michigan State University, first published this poem in the American Fruit Grower.

In the beginning
There was Earth; beautiful and wild;
And then man came to dwell.
At first, he lived like other animals
Feeding himself on creatures and plants around him.
And this was called IN BALANCE WITH NATURE.

Soon man multiplied.
He grew tired of ceaseless hunting for food;
He built homes and villages.
Wild plants and animals were domesticated.
Some men became Farmers so that others might become Industrialists, Artists, or Doctors.

And this was called Society.
Man and Society progressed.
With his God-given ingenuity, man learned to feed, clothe, protect, and transport himself more efficiently so he might enjoy Life.
He built cars, houses on top of each other, and nylon.
And life was more enjoyable.

The men called Farmers became efficient.
A single farmer grew food for 41 Industrialists, Artists and Doctors, And Writers, Engineers, and Teachers, as well.
To protect his crops and animals, the Farmer produced substances to repel or destroy Insects, Diseases, and Weeds.
These were called Pesticides.

Similar substances were made by Doctors to protect humans.
These were called Medicine.
The Age of Science had arrived and with it came better diet and longer, happier lives for more members of Society.

Soon it came to pass
That certain well-fed members of Society
Disapproved of the Farmer using Science.
They spoke harshly of his techniques for feeding, protecting, and preserving plants and animals.

They deplored his upsetting the Balance of Nature;
They longed for the Good Old Days.
And this had emotional appeal to the rest of Society.
By this time, Farmers had become so efficient, Society gave them a new title:

Unimportant Minority.
Because Society could not ever imagine a shortage of food
Laws were passed abolishing Pesticides, Fertilizers, and Food Preservatives.

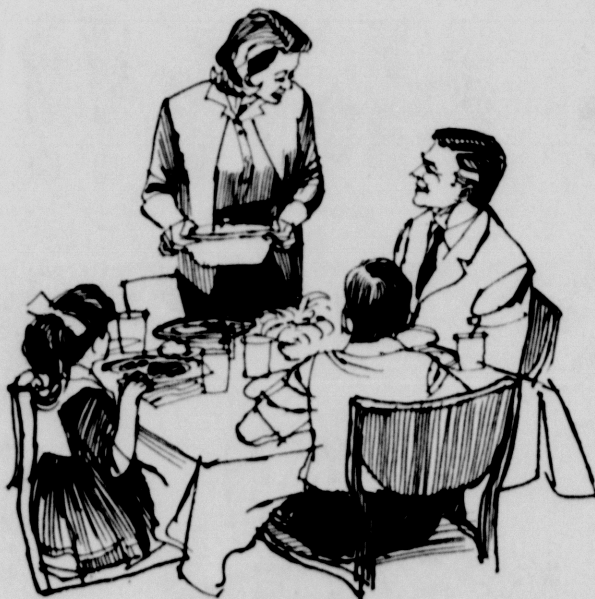

Insects, Diseases, and Weeds flourished,
Crops and animals died.
Food became scarce.
To survive, Industrialists, Artists, and Doctors were forced to grow their own food.
They were not very efficient.

People and governments fought wars to gain more agricultural land.
Millions of people were exterminated.
The remaining few lived like animals.
Feeding themselves on creatures and plants around them.
And this was called IN BALANCE WITH NATURE.

Neinda Philosopher Wants President to Establish New Post—Secretary of Recall

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has become aware of how many items are being recalled these days, his letter this week indicates.

Dear editor: When I read a newspaper last night that 87 tons of cornbread mix had been recalled by the Food and Drug Administration because it contained too much of something called aflatoxin, I began turning over in my mind the things I can think of that have been recalled in recent months.

These included soup, tuna, detergents, swordfish, cereals, lipstick, toys, airplanes, automobiles and a few diplomats. There may have been others that escaped me but this gives you an idea of how the recall business is booming.

If it keeps up the President may have to establish a new cabinet position to be known as Secretary of Recall.

Several columnists have suggested that it would be

simpler to check foods before they leave the plant, rather than waiting till they get on the grocery store shelves, but this takes all the drama out of it. There's no news value in cornbread recalled, that's a headliner.

If the President does establish a Secretary of Recall I can foresee many opportunities for the office other than those involving foods, cars, and such like.

For example, there are some votes I cast for certain people over the past few years I'd sure like to recall. At the time they seemed like good, sound votes, passing any standards set by the Food and Drug Administration, but after the candidates got into office or on the grocery store shelf as you might say, I could tell right off they contained botulism if not worse.

You can say sure, but you can recall them at the next election.

That's right, but that's a mighty long time to have to put

up with contaminated cornbread or politicians. Yours faithfully, J. A.

Applications Now Being Taken for Summer Job Exams

WASHINGTON, D. C. — Congressman Omar Burleson (D-Tex.) said today that the Civil Service Commission is now receiving applications for the 1972 competitive examination for summer employment with the United States Government. The examination leads to eligibility for appointment to most temporary summer jobs at Grades GS-1 through 4, and also Post Office Clerk-Carrier PFS-5.

Those who are interested in the summer jobs covered may apply to take the written test on or before three filing dates — December 3, 1971, January 7, 1972 and February 2, 1972. Representative Burleson stressed that applications for the written test postmarked after February 2, 1972, will not be accepted. If you miss the last test, you can not be considered for jobs filled by this application and for maximum consideration, you should apply as soon as possible.

The Congressman noted that applicants rated eligible in 1971 need not take the written test again unless they wish to improve their scores. They will automatically receive a special form to update their qualifications and indicate their availability for employment in 1972.

Any application forms needed to apply for jobs described in Civil Service Announcement No. 414 may be obtained from college placement offices, most post offices, and U. S. Civil Service Commission Area Offices.

THE FAMILY LAWYER

Father to the Rescue

Suppose a man sees his son being beaten up by the neighborhood bully. Does he have a legal right to use force in his son's defense?

He does indeed. Parallel to the right of self defense is the right to defend the members of one's family, with force if need be. This doctrine goes all the way back to the days of feudalism, when the master of the household was legally entitled to protect his family from attack.

But in such situations, there is always the chance of escalating the violence. Therefore, the law places careful limits on this right of family defense.

1) The force used must not be excessive. For example:

A father found his son involved in a fracas with the man next door. Rushing to the rescue, he knocked the man unconscious with a mighty blow on the head. Then he followed up with a swift kick in the abdomen.

For the resulting internal injuries, the father was held liable in court. The right to defend his son, said the court, did not include the right to kick someone who was lying on the ground unconscious.

2) The force must be used only to defend, not to "get even." In another case, a father found out that a certain teacher had slapped his son in class. Days later, meeting the teacher on the sidewalk, he punched him in the nose.

Could the father be held liable? Again, yes. The court said that since the boy was in no danger at the time of the punch, the father's action could not fairly be called defensive.

3) Many courts add that the father's right to use force is no greater than the child's. Thus: A belligerent teen-ager deliberately picked a fight with another youth. But by the time his father came along, he was al-

ready getting the worst of it. The father promptly slugged the other boy with a rock.

Sued later for damages, the father claimed he had acted to protect his son. But the court held him liable anyhow. The court said that, in terms of the right to use force, he "stood in his son's shoes"—that is, in the shoes of the aggressor.

Questions and Answers

Q. I had doctors' bills while I was visiting a friend in another State last spring. I filed a claim with the Medicare office in that State and they took out the \$50 deductible. I now have bills from my own doctor. How do I notify the Medicare office in my home State so they won't take out another \$50 deductible?

A. You don't have to worry about paying the deductible twice. All Medicare claims are coordinated through Medicare's central office in Baltimore.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Because this is Thanksgiving week I am borrowing Cong. Omar Bureson's newsletter for this space this week. Doing so serves two purposes, first it has some good thoughts for this Thanksgiving season and second fills up this space. With the paper coming out a day early I seem to have lost the day that I normally write this column.

The following is a "rerun" from November 23, 1967. The thoughts then are no different now.

In spite of our individual concerns, disappointments and frustrations, as a people we have more reason to be thankful than any Nation in existence now or in the past. We can be thankful that we have lessons of the past to guide us in the future, if we will but heed them. It says in the 14th verse of the 7th Chapter of II Chronicles, "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

We are the greatest nation the world has ever known but there are troubled clouds hanging over the horizon.

We do not know what the future holds but we know who holds the future.

The coming of the Pilgrims to the New England coast in 1620 forms a glamorous chapter in American history, although it marked the first socialist settlement in America.

Little noticed, and more often ignored, is that this experiment in socialism failed within three years, and for their very survival, the Pilgrims had to turn to what we know as the free enterprise system. This valuable lesson should be more emphasized in all places when we pay tribute to these sturdy people who were seeking new freedoms.

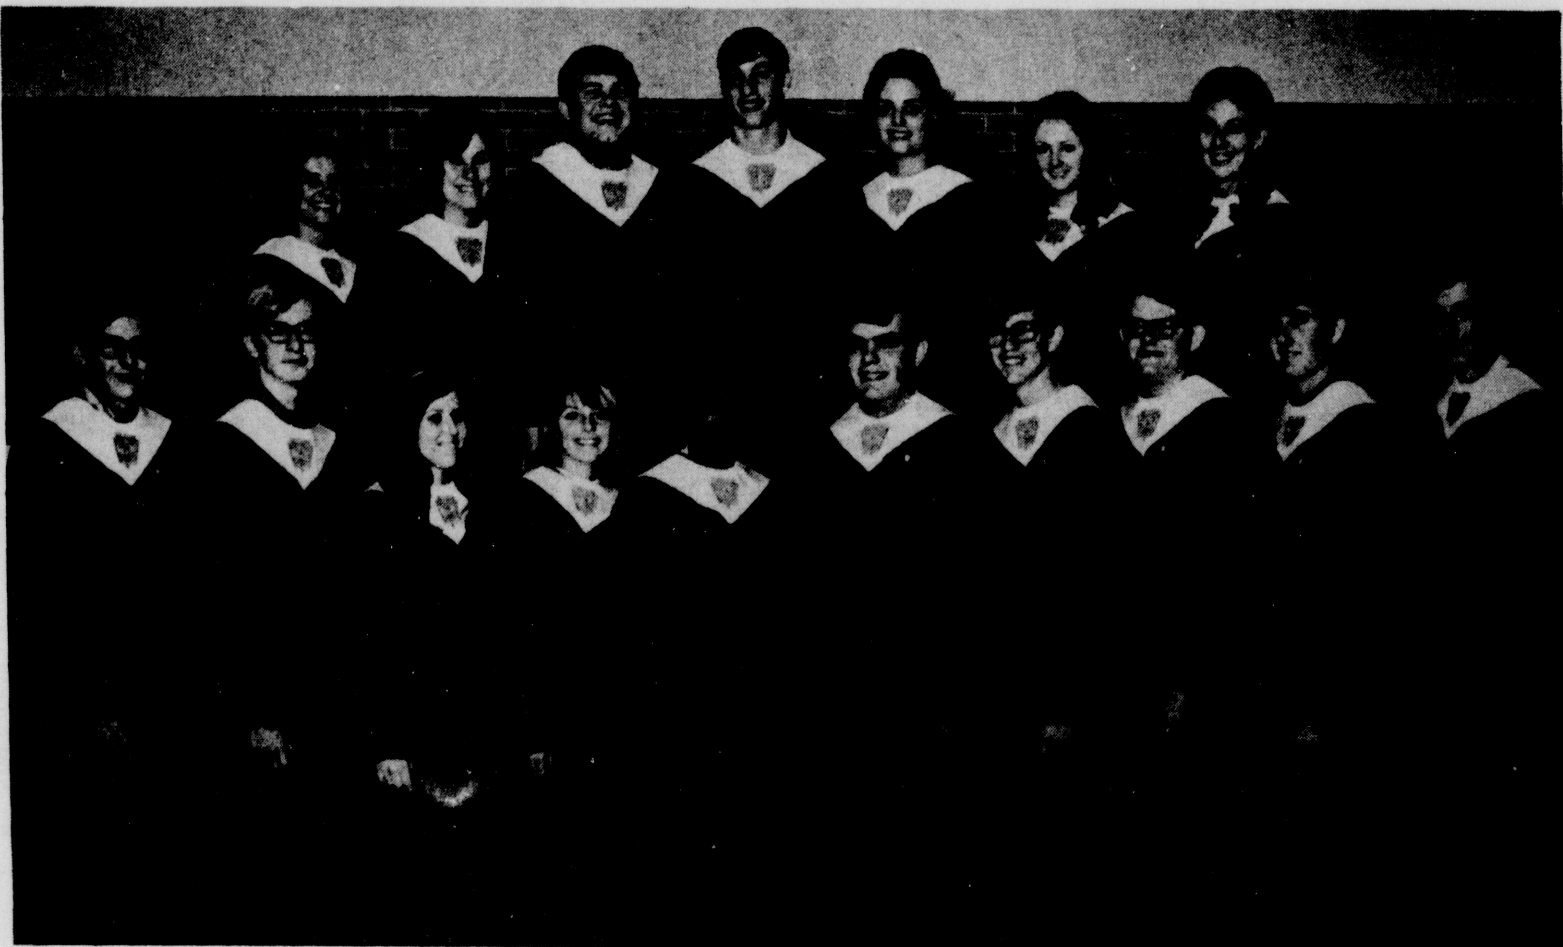

Before landing, the Pilgrims entered into what we know as the Mayflower Compact. Under this agreement, Plymouth was set up as a share-the-wealth community. Nobody owned anything. Whatever was produced belonged to the community as a whole. They called this system "the common course and condition." They lived under this system from the desperate, disease-ridden first winter of 1620-21 until the hungry spring of 1623. Then they changed to private enterprise. Why? The answer is written by William Bradford, one of the leading original Pilgrims and second Governor of Plymouth Colony, entitled, "Of Plimoth Plantation."

The Pilgrims were not long under this "common course and condition," writes Bradford, until it "was found to breed much confusion & discontent, & retard employment that would have been to their benefite and comforte. For the young men that were most able and fitte for labor and service did repine that they should spend their time & strength to worke for other mens wives and children, without any recompense. The strong...had no more in devision of victails & cloaths than he that was weake...."

"Upon the poynte all being to have alike, and all to doe alike, they thought themselves in the like condition, and one as good as another. And so, if it did not cut off these relations that God hath set amongst men, yet it did at least much diminish and take of the mutuall respects that should be preserved amongst them."

Instead of a Thanksgiving Feast in the fall of 1622, there was literal starvation and hopelessly low morale. "So they begane to thinke how they might raise as much corne as they could...that they might not still thus languish in misere. At last, after much debate of things, the governor gave way that they should set corne every man for his own per-

FORTY-FIVE YEARS AGO
(November 23, 1928)

On November 4th, at the First Baptist Church of Anson, preliminary steps were taken for the permanent organization of an Associational B. Y. P. U. for Jones County. Rev. T. L. Kilpatrick, pastor of the South Side Baptist Church of Stamford was elected president and the remaining officers in line with such an organization were elected.

The first meeting of the association will be held at the First Baptist Church of Hamlin at 3:00 o'clock November 25th. The main purpose of this meeting will be to create enthusiasm in the work of the Association, the encouragement of B. Y. P. U. work throughout the County, and to urge a large representation from this district to the State B. Y. P. U. Convention which convenes in San Angelo Thanksgiving Day.

Cuykendall, field man employed by the Sweetwater Cotton Oil Mill, of which the Hamlin mill is a branch, is in Hamlin and will remain here two weeks for the purpose of promoting diversification in our trade territory.

It is especially desired that every business man in Hamlin be present at this meeting, and each and every farmer has a cordial invitation.

The Herald is placed in the office at Hamlin early Friday morning and every subscriber on the routes and the people of town should receive their paper Friday unless the roads are bad so the route men can not make good speed. If you miss your paper report it to this office.

We wish to call your attention to the description of the new six cylinder Chevrolet that is to be found in this issue of the Herald.

Saturday all day, we are showing this car in our sales rooms by a beautiful display of pictures, etc. Come, you ought to see and learn the Chevrolet Six.

Social Security Booklet Is for Young Families

Social security protection for young workers and their families is described in detail in a new edition of a booklet available at any social security office, according to social security officials here.

The 24-page booklet is called "Social Security Information for Young Families." It explains how young workers may get monthly social security benefits if they become severely disabled—and how their fami-

A well of water...

Many important events have taken place at the well. In days long ago it was a meeting place, where all came because of the necessity to obtain life-sustaining water.

Jacob met his beloved Rachel at the well. Moses met the daughters of his future father-in-law at the well in Midian. Much later Jesus Christ met a woman of Samaria at the well and said, "Whosoever drinketh of the water that I shall give him shall never thirst: but the water that I shall give him shall be in him a well of water springing up into everlasting life."

The church of God today is a meeting place where many come to obtain this life-giving and life-sustaining water of which Jesus spoke.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

HONORED AT COFFEE — Mrs. Kelly Scott, OES worthy matron, was honored last Wednesday with a coffee in the home of Mrs. Paul Goodgame, left. Mrs. Scott attended Grand Chapter in Austin.

Coffee Honors OES Worthy Matron Recently

Mrs. Kelly Scott, worthy matron of the Order of Eastern Star Chapter No. 460, was honored last Wednesday morning with a coffee in the home of Mrs. Paul Goodgame. The occasion was in honor of her trip to Grand Chapter in Austin recently.

Mrs. Goodgame greeted guests and presented them to Mrs. Scott and past matrons of the local chapter, Mmes. R. H. McCurdy, W. B. Cotton, A. A. Hackley, Dick Maberry, Clarence Hyer, O. G. Harvey

and A. Hudson.

Mrs. Hackley, a charter member of the Hamlin Chapter and longtime member of the O. E. S., gave some highlights of her year as worthy matron in 1970.

Coffee, nut bread and cheese rolls were served from a table decorated in fall colors.

Co-hostesses were Mmes. Thomas Welch, Don Bailey, Harold Nelson, Charles Brumley, Cotton and Harvey.

Mrs. L. M. Braley registered guests.

Mrs. Cal Sewell will discuss goals for the chapter at the Christmas party to be held at the regular meeting Dec. 7.

Wedding Hints

Planning a wedding? These tips on getting information to the Hamlin Herald office should be followed.

1. Two pictures of the bride will be used only if the engagement is announced six weeks prior to the wedding. A one column picture will be used with the engagement announcement and a two column picture will be used with the wedding.

2. Only black and white prints will be used. A billfold size for the engagement picture is adequate. A 5 x 7 or 8 x 10 is suitable for the wedding picture. Glossy prints are preferred.

3. Wedding information and picture should be turned in before the wedding or on Monday immediately following a wedding that occurs Wed-

nesday through Sunday. Monday and Tuesday evening weddings should be reported no later than Monday. Information that is to be sent to a daily publication should be in the Herald office one week prior to the wedding date.

4. Information and picture received three weeks after the event will not be published. A brief announcement of the wedding will be used after three weeks.

5. Wedding stories and pictures are used when either the bride or groom is a resident or former resident of Hamlin. Grandchildren of residents may choose either to have a picture with cutlins or a wedding story.

6. Information blanks for engagements, weddings and anniversaries are available at the Herald office.

A few native tricks by which carp can be enticed into an area include "seeding" the spot with grains of dried corn. Leave the corn overnight, then fish over it the next morning. You can also use kernels of corn, drilled and threaded on a hook.—SPORTS AFIELD.

The father of modern canoeing was a Scot named John MacGregor. Swimmer, crack rifle shot, boxer, world traveler, wealthy, super-religious he became interested in canoes from viewing Indian and Eskimo boats on a Canadian and Arctic trip. He returned to England and had a boat built to his own specs. —SPORTS AFIELD.

Considered by many to be the best of Minnesota's limited number of canoeing streams, the Kettle River is a 53-mile long scenic river emptying into the St. Croix, at St. Croix State Park about halfway between St. Paul and Duluth. AUSTIN — Almost 100,000 state employees and 140,000 school teachers will get the pay raises the Legislature voted for them — effective November 14.

President Nixon's Pay Board and the Cost of Living Council notified state officials all wage, salary and other benefit increases provided in the 1971-72 state appropriations act will be permitted on end of Phase 1 of the president's wage-price freeze.

For most state employees, the 6.8 percent increase they expected to get September 1 will reach them on a supplemental payroll for the November 14-November 30 period.

Teachers will receive a five percent per year boost in line with a 1969 long-term compensation plan approved by the Legislature.

State employees and teachers lost about \$19 million of their scheduled raises between September 1 (start of the state's fiscal year) and November 14, date of the un-thawing.

They continued to sweat out federal agency rulings as to whether their benefits could be made retroactive because they actually were ordered by state lawmakers before the August freeze order.

State Commissioner of Education J. W. Edgar notified local school districts that compensation benefits such as travel expenses and supplements for insurance premiums may also be put into effect. State funds will be disbursed to school districts in line with the programmed increases beginning with the December foundation fund payments.

School districts with 1,000 or more employees will have to report raises to the Pay Board. Districts with fewer than 1,000 employees are not required to make the reports, although they must operate within board rules.

AG OPINIONS — A local police and fire civil service commissioner may serve as an assistant postmaster or a city tax board of equalization member at the same time, Atty. Gen. Crawford C. Martin held.

In other recent opinions Martin concluded:

Taxable property valuation as used in the education code is synonymous with "assessed valuation", and only the last assessed valuation as determined by county government in "the next preceding year" may be used as one of the criteria for establishment of a county junior college district.

Taxes and fees paid the state comptroller under protest may be refunded on his determination within the period in which he may assess a deficiency for the tax without necessity of a law suit.

Secretary of State Bob Bullock, as chief state election officer, ruled senatorial district political party conventions next May must be held in Senate districts created by the Legislative Redistricting Board.

COURTS SPEAK — A district court retrial was ordered by the Texas Supreme Court of a \$470,000 judgment against Sharpstown State Bank of Houston in litigation concerning two surety bonds.

Third Court of Civil Appeals approved shutting St. Louis Southwestern Railway Company stations in Addison and Grapevine — and a business shift to Carrollton.

Supreme Court judges heard oral arguments from the Alcoholic Beverage Commission in a case in which the agency attacks a district court ruling that its suspensions of offending taverns' licenses are appealable.

SHORT SNORTS
State Sen. Wayne Connally of Floresville announced his candidacy for lieutenant governor.

The State Highway Department received permission to excavate the site of its proposed new \$20 million headquarters building here.

State Securities Commissioner Truman Holladay stopped stock trading by three Sherman firms pronouncing a kind of "electronic checkbook."

Former U. S. Sen. Ralph Yarborough says its 10-to-one he will run for governor or U. S. Senator next year.

Bids on more than 600 tracts of oil and gas leases will be opened December 7 by the School Land Board.

Undercover Alcoholic Beverage Commission agents will check private clubs for violations of a new law allowing issue of temporary membership permits for \$2.

Hunting license sales are near a record — at more than 290,000

for September and October alone — reports Parks and Wildlife Department.

December 1 is the deadline for new car dealers, distributors, manufacturers and factory representatives to get licenses under the Texas Motor Vehicle Commission act.

The State Bar of Texas has approved a new code of professional responsibility for lawyers.

Reps. Tom Moore Jr. of Waco and Grant Jones of Abilene are candidates for the state senate in the new 24th district.

A major Democratic fund-raising dinner is scheduled here December 6, with Sen. Hubert Humphrey and Congressman Wilbur Mills as drawing cards.

IN BALANCE WITH NATURE

Dr. John Carew, head of horticulture at Michigan State University, first published this poem in the American Fruit Grower.

In the beginning
There was Earth; beautiful and wild;
And then man came to dwell.
At first, he lived like other animals
Feeding himself on creatures and plants around him.
And this was called IN BALANCE WITH NATURE.

Soon man multiplied.
He grew tired of ceaseless hunting for food;
He built homes and villages.
Wild plants and animals were domesticated.
Some men became Farmers so that others might become Industrialists, Artists, or Doctors.
And this was called Society.

With his God-given ingenuity, man learned to feed, clothe, protect, and transport himself more efficiently so he might enjoy Life.
He built cars, houses on top of each other, and nylon.
And life was more enjoyable.

The men called Farmers became efficient.
A single farmer grew food for 41 Industrialists, Artists and Doctors, And Writers, Engineers, and Teachers, as well.
To protect his crops and animals, the Farmer produced substances to repel or destroy Insects, Diseases, and Weeds.
These were called Pesticides.

Similar substances were made by Doctors to protect humans. These were called Medicine.

The Age of Science had arrived and with it came better diet and longer, happier lives for more members of Society.
Soon it came to pass
That certain well-fed members of Society Disapproved of the Farmer using Science.
They spoke harshly of his techniques for feeding, protecting, and preserving plants and animals.
They deplored his upsetting the Balance of Nature;
They longed for the Good Old Days.
And this had emotional appeal to the rest of Society.

By this time, Farmers had become so efficient, Society gave them a new title:
Unimportant Minority.

Because Society could not ever imagine a shortage of food
Laws were passed abolishing Pesticides, Fertilizers, and Food Preservatives.

Insects, Diseases, and Weeds flourished,
Crops and animals died.
Food became scarce.

To survive, Industrialists, Artists, and Doctors were forced to grow their own food.
They were not very efficient.

People and governments fought wars to gain more agricultural land.
Millions of people were exterminated.
The remaining few lived like animals.
Feeding themselves on creatures and plants around them.

And this was called IN BALANCE WITH NATURE.

Neinda Philosopher Wants President to Establish New Post—Secretary of Recall

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has become aware of how many items are being recalled these days, his letter this week indicates.

Dear editor: When I read a newspaper last night that 87 tons of cornbread mix had been recalled by the Food and Drug Administration because it contained too much of something call aflatoxin, I began turning over in my mind the things I can think of that have been recalled in recent months.

These included soup, tuna, detergents, swordfish, cereals, lipstick, toys, airplanes, automobiles and a few diplomats. There may have been others that escaped me but this gives you an idea of how the recall business is booming.

If it keeps up the President may have to establish a new cabinet position to be known as Secretary of Recall.

Several columnists have suggested that it would be

simpler to check foods before they leave the plant, rather than waiting till they get on the grocery store shelves, but this takes all the drama out of it. There's no news value in cornbread suppressed, but cornbread recalled, that's a headliner.

If the President does establish a Secretary of Recall I can foresee many opportunities for the office other than those involving foods, cars, and such like.

For example, there are some votes I cast for certain people over the past few years I'd sure like to recall. At the time they seemed like good, sound votes, passing any standards set by the Food and Drug Administration, but after the candidates got into office or on the grocery store shelf as you might say, I could tell right off they contained botulism if not worse.

You can say sure, but you can recall them at the next election. That's right, but that's a mighty lone time to have to put

up with contaminated cornbread or politicians. Yours faithfully, J. A.

Applications Now Being Taken for Summer Job Exams

WASHINGTON, D. C. — Congressman Omar Burleson (D-Tex) said today that the Civil Service Commission is now receiving applications for the 1972 competitive examination for summer employment with the United States Government. The examination leads to eligibility for appointment to most temporary summer jobs at Grades GS-1 through 4, and also Post Office Clerk-Carrier PFS-5.

Those who are interested in the summer jobs covered may apply to take the written test on or before three filing dates — December 3, 1971, January 7, 1972 and February 2, 1972. Representative Burleson stressed that applications for the written test postmarked after February 2, 1972, will not be accepted. If you miss the last test, you can not be considered for jobs filled by this application and for maximum consideration, you should apply as soon as possible.

The Congressman noted that applicants rated eligible in 1971 need not take the written test again unless they wish to improve their scores. They will automatically receive a special form to update their qualifications and indicate their availability for employment in 1972.

Any application forms needed to apply for jobs described in Civil Service Announcement No. 414 may be obtained from college placement offices, most post offices, and U. S. Civil Service Commission Area Offices.

Some of our deer hunters have reported a successful hunt this season on their first try and have gone back to try again. The Spitzer brothers, Garrett and Louis, and also Bill Suter, all hunt on a lease near Doss, Texas, and all three bagged a nice sized deer. Louis Spitzer reports that his grandson, Larry Dale Lehrmann of Fort Worth, also shot a deer.

Mr. and Mrs. Clif Gholson were happy to learn last week that their daughter and husband, Capt. and Mrs. Jeff Hubner, are back in the States after completing a tour of duty in the Philippine Islands. They are presently in Iowa visiting with Capt. Hubner's parents, but will be making their home in Abilene soon, where he has been assigned to Dyess Air Force Base.

Mrs. Leland Ashorn has returned from a trip to Bellville, where she visited with her mother and other relatives. She accompanied her son and family, Mr. and Mrs. Larry Ashorn and daughter, on this trip.

Mr. and Mrs. Jimmy Loyd True of Abilene have announced the birth of a daughter, Traci Susanne, on Nov. 9, weighing 7 lb. 12½ oz. The mother is the former Carolyn Sander of Old Glory. Mrs. Normanda Sander is the maternal grandmother.

THE FAMILY LAWYER

Father to the Rescue

Suppose a man sees his son being beaten up by the neighborhood bully. Does he have a legal right to use force in his son's defense?

He does indeed. Parallel to the right of self defense is the right to defend the members of one's family, with force if need be. This doctrine goes all the way back to the days of feudalism, when the master of the household was legally entitled to protect his family from attack.

But in such situations, there is always the chance of escalating the violence. Therefore, the law places careful limits on this right of family defense.

1) The force used must not be excessive. For example:

A father found his son involved in a fracas with the man next door. Rushing to the rescue, he knocked the man unconscious with a mighty blow on the head. Then he followed up with a swift kick in the abdomen.

For the resulting internal injuries, the father was duly held liable in court. The right to defend his son, said the court, did not include the right to kick someone who was lying on the ground unconscious.

2) The force must be used only to defend, not to "get even." In another case, a father found out that a certain teacher had slapped his son in class. Days later, meeting the teacher on the sidewalk, he punched him in the nose.

Could the father be held liable? Again, yes. The court said that since the boy was in no danger at the time of the punch, the father's action could not fairly be called defensive.

3) Many courts add that the father's right to use force is no greater than the child's. Thus:

A belligerent teen-ager deliberately picked a fight with another youth. But by the time his father came along, he was al-

ready getting the worst of it. The father promptly slugged the other boy with a rock.

Sued later for damages, the father claimed he had acted to protect his son. But the court held him liable anyhow. The court said that, in terms of the right to use force, he "stood in his son's shoes"—that is, in the shoes of the aggressor.

Questions and Answers

Q. I had doctors' bills while I was visiting a friend in another State last spring. I filed a claim with the Medicare office in that State and they took out the \$50 deductible. I now have bills from my own doctor. How do I notify the Medicare office in my home State so they won't take out another \$50 deductible?

A. You don't have to worry about paying the deductible twice. All Medicare claims are coordinated through Medicare's central office in Baltimore.
